

EcoClear LLC is an industry leader in Professional Disinfection and Sanitizing Services. We utilize a cutting edge, EPA approved, hospital grade disinfectant to quickly and effectively respond to areas infected with biohazards, such as COVID-19, airborne pathogens and other transferable illnesses.

- What We Use

Our **Stabilized Chlorine Dioxide** disinfectant is an environmentally safe sanitizer that does not leach, stain or cause corrosion on any surface where it is applied. It works by selectively oxidizing the harmful bacteria, molds, pathogens, and viruses and remains effective long after it is applied, yet allows the space to be useable in as little as 20 minutes.

Additionally, our disinfectant/sanitizer product is on the EPA list for use against COVID-19, is NSF certified as a non-rinse sanitizer for food preparation surfaces, and is the **only** product that is recognized by The Carpet and Rug Institute of America as a carpet sanitizer.

- Who We Service

- Corporate Office Buildings
- Schools
- Churches
- Food Processing Facilities
- Transportation Hubs (Including Vehicles)
- Sporting and Entertainment Venues
- Healthcare Facilities
- Private Homes

- What We Target

We give extra attention to highly trafficked touch points such as bathroom fixtures, door handles, railings, arm rests, table tops, keyboards, mice, phones, ear pieces, light switches, in addition to fogging the entire room for maximum insurance of remediation.

- Why Us?

EcoClear has the resources to quickly mobilize our team of seasoned professionals that understand what it takes to completely remediate all pathogens and viruses to ensure a completely safe environment for the client to return to.

We work directly with each client to understand the area to be serviced and the timeframe in which to do it to serve the needs of the client. We tailor our means of application to the demands of the specific job, whether that be electrostatic spray guns, foggers, or traditional spray/mist applicators, leaving the client a sanitary environment and peace of mind.
